

## **Army Energy Strategy Meeting**

The Facilities and Housing Directorate has announced a meeting to discuss the Army Energy Strategy with industry. Numerous companies involved with the energy/utilities/ESPC industry have been invited to attend a briefing in Presidential Towers in Arlington, VA on 19 May 05. The meeting will introduce the Army's new Energy Strategy and will describe the five major goals and specific objectives of our Energy Strategy and the process we will follow to develop the Army Energy Campaign Plan. The Campaign Plan will be a detailed plan of the energy projects and investment programs necessary to achieve our long-range energy objectives. These two documents will form the basis for Army Policy and funding for the next 25 years.

A follow-on workshop in July 2005 will be announced at which time we will invite back previous participants to join us as we assemble the Campaign Plan. We look forward to your observations and recommendations at that time on the technology, policies, and legislative initiatives you envision will be required if we are to successfully execute our Energy Strategy.

The May Strategy briefing will be conducted in NC1/Presidential Towers, 2511 Jefferson Davis Hwy, Arlington, VA 22202 (Crystal City). Please plan to arrive by 8:30 AM so we can assist you through the security screening, sign-in, and escort requirements.

Registration is required for the Energy Strategy briefing. Attendance is limited to two representatives from each organization. The registration form is attached. Only the first 40 registrants can be accommodated. If you are unable to attend the Energy Strategy briefing, we will post a record of the proceedings on the ACSIM web site under *Hot Topics* at <http://www.hqda.army.mil/acsim/homepage.shtml> by May 27. My point of contact for this function is David Purcell, (703) 601-0371, or e-mail [David.Purcell@hqda.army.mil](mailto:David.Purcell@hqda.army.mil). Please promptly return the attached registration form and refer all inquiries to him.
